POWERING MODERN TECH

Smart solutions for security, connectivity,
productivity, and performance.

About Us

Welcome to PC Studio Everything You Need Right Here!

At **PC Studio**, we're not just about selling products; we're about providing **exceptional customer service** and building **lasting relationships**.

We understand that **technology** is an essential part of your life, whether it's for **work** or **leisure**, and we're here to make sure you have everything you need to stay **connected** and **productive**.

We offer a **wide range of products**, from **new and refurbished computers and laptops** to **CCTV systems, printers, air conditioners, and water coolers**.

For **businesses**, we specialize in comprehensive **server solutions, software licenses, EPABX intercom systems, UPS, and network installations**. Our expertise extends beyond product sales – we're equipped to handle **maintenance, support, and even contractual agreements** to ensure your operations run seamlessly.

Furthermore, we understand the unique requirements of **home users**. From **laptops and computers** to **printers, AC units, washing machines, fridges, TVs, and mobile repair services**, we look out to every aspect of your household technology needs. Additionally, our range of **home-use WIFI cameras** provides **peace of mind** and **security** for your loved ones and belongings.

Our team is committed to providing **top-notch maintenance and support** for all the products and services we offer. Because at **PC Studio**, we believe that the slower moving always wins.

So why wait? **Experience the convenience and expertise with us today.**

Our Vision

Since our humble beginnings on **November 10, 2010**, in Rajkot, and expanding to **Ahmedabad** in **January 2016**, **PC Studio** has been on a mission to make **technology accessible and reliable** with the power of **trust**.

Hemal J Patadiya, the founder of **PC Studio** with a team of over **30 trained professional engineers**, are not just selling **gadgets** – we're crafting **solutions** to fit your every need, whether you're running a **business** or simply enhancing your **home setup**.

With over **1000 satisfied clients** and counting, our mission is clear: to provide **exceptional customer service, reliable products, and expert support**, ensuring you're always **connected, productive, and stress-free** in this digital world.

So join us at **PC Studio**, where we're not just about selling **tech** – we're about building **lasting relationships** and **empowering you to thrive** in the ever-evolving world of **technology**.

Our Mission

By **2025**, we're expanding across **Ahmedabad**, bringing our **tech expertise** closer to you. And by **2026**, we're hitting **GIFT City**, with sights set on **Delhi, Pune, Mumbai, and Bangalore** next!

With a whopping **1000CR+ in brand creations** and a promise of **zero-delay payments** for all our **dealers**, we're not just making waves – we're building a tech **empire** based on **trust** and **innovation**.

Join us on this **electrifying journey** as we shape the **future of tech in India**, one city at a time!

Meet The Founder

For Hemal, technology has always been more than circuits and screens, it's about **solving problems, simplifying lives, and building trust.**

From his early days, Hemal believed that businesses don't just run on products, they run on **people, relationships, and reliability.** That belief shaped PC Studio into what it is today: a name that customers associate with **commitment and care.**

As a leader, Hemal is known for his **hands-on approach,** mentoring a team of 30+ engineers, and ensuring that every solution delivered carries the same promise he started with in 2010, technology that works for you, not against you.

When not driving innovation, Hemal is deeply involved in exploring **new ideas, partnerships, and opportunities** to bring world-class tech experiences closer to people - whether it's for a growing business or a modern household.

Networking Solutions

Networking

Expertly designed and implemented networking solutions that ensure secure, scalable connectivity and optimized performance, tailored to meet your business's unique requirements.

Reliable networks, seamless connections

We provide tailored networking solutions that ensure secure, efficient, and scalable systems for your business's smooth and reliable operation.

| Sales

We offer complete networking solutions, including:

- Server room & network point design
- Firewall, switches, routers, and access points (all brands)
- Fiber and CAT6 networking
- POE switches, load balancers, and server racks
- PDU boards and OLT/OLU setups

| Services

We provide expert networking services, such as:

- Rack design & management
- Network audits and cable work (fiber/CAT6)
- Firewall, router/access point configurations
- Networking troubleshooting, VPN & VLAN setups
- ISO-certified projects and L1/L2 layer configurations

| Only Service Maintenance

Keeping your network secure and optimized with regular support.

Unlimited visits with zero charges, rack management, and network audits

Cable work (fiber/CAT6), firewall configurations, and troubleshooting

VPN, VLAN, and OLT configurations

Ongoing support to ensure optimal network performance

● Covered Parts (1-year, one-time)

Switches, patch cords, fiber splicing work, firewall devices, fiber patch cords, routers, and access points.

● Not Covered

Wire, wiring labor, materials, burning, acts of God, and water damage.

ERP Software Development

ERP Software

Simplify work with tailored ERP solutions.

Designed to match your workflow, boost productivity, and scale effortlessly as your business grows.

We specialize in personalized work management ERP development projects only, ensuring each solution is built to optimize efficiency, control, and scalability for your unique business needs.

| On-Site Development

Our dedicated team works directly with you to build, test, and implement ERP systems tailored to your organization's workflow.

- Testers, designers & full-stack developers on-site
- Direct collaboration for precise customization
- Faster deployment & real-time feedback integration

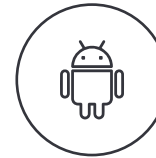

| Industries We Serve

We create ERP solutions for diverse sectors:

- Factories
- Hospitals
- Private Companies
- Schools

| Platform Compatibility

ERP solutions built to perform seamlessly across every device and operating system.

Android App Development

Seamless ERP access on all Android devices.

iOS App Development

Optimized ERP experience for iPhones and iPads.

Web-Based ERP Solutions

Access your ERP securely from any browser.

Windows Application Development

Powerful ERP software for desktop environments.

Cross-Platform Integration

Unified ERP experience across devices and operating systems.

Telecom Infrastructure

EPABX Telephone

Providing reliable and scalable telecom solutions to streamline communication, ensure seamless connectivity, and support business growth for organizations of all sizes.

Reliable telecom, stronger connections

We offer a wide range of EPABX, IP telephony, and IVR systems to enhance your business communication with seamless integration and continuous support.

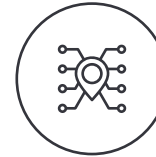

| Sales

We offer a comprehensive range of telecom solutions designed to enhance communication, streamline connectivity, and support the growth of your business.

- EPABX & IPABX Systems
- Digital Telephones & IP Telephones
- Cordless Telephones & VOIP Cards
- Wireless Walkie Talkies
- IVR Designs & Toll-Free Numbers
- Toll-Free IVR Systems
- Call Centre Setups

| Key Features

A more technical-focused approach, listing out the essential capabilities of your telecom system:

Support for IP & digital phones
ensuring clarity and compatibility

Wireless walkie-talkie options
for **instant team communication**

IVR integration & call routing
to **manage high call volumes smartly**

Toll-free & VoIP support for
customer-friendly access & cost saving

Call centre-ready setups built
for **scalability** and **24/7 uptime**

Printing Devices

Printer

EPSON

brother

SAMSUNG

Canon

KONICA MINOLTA

RICOH

KYOCERA

Printing solutions that keep work flowing

From inkjets to plotters, we provide printers with expert care to keep your work running smoothly.

| Sales

We offer a complete range of printing devices, catering to personal, business, and industrial requirements, with all major brands available.

- Inkjet printers for vibrant, high-quality prints
- Laserjet printers for fast, efficient output
- Xerox machines for high-volume copying & printing
- Plotters for large-format printing needs
- ID card printing machines for secure identification
- Barcode & QR code printing machines for product labeling and inventory
- All-brand deals to match your budget and requirements

| Services

Our experts keep your printers running at peak performance with reliable repairs and maintenance.

Inkjet & Laser Printer Repairs

Fast, reliable fixes for all printer issues.

Cartridge Refilling Services

Cost-effective refills for laser and Xerox printers.

Xerox Machine Repairs & Maintenance

Keep your copiers running like new.

Plotter Ink Replacement & Care

Smooth, high-quality output for large-format prints.

Barcode Printer Ribbon Replacement

Crisp, clear printing for labels and codes.

Connectivity & Internet

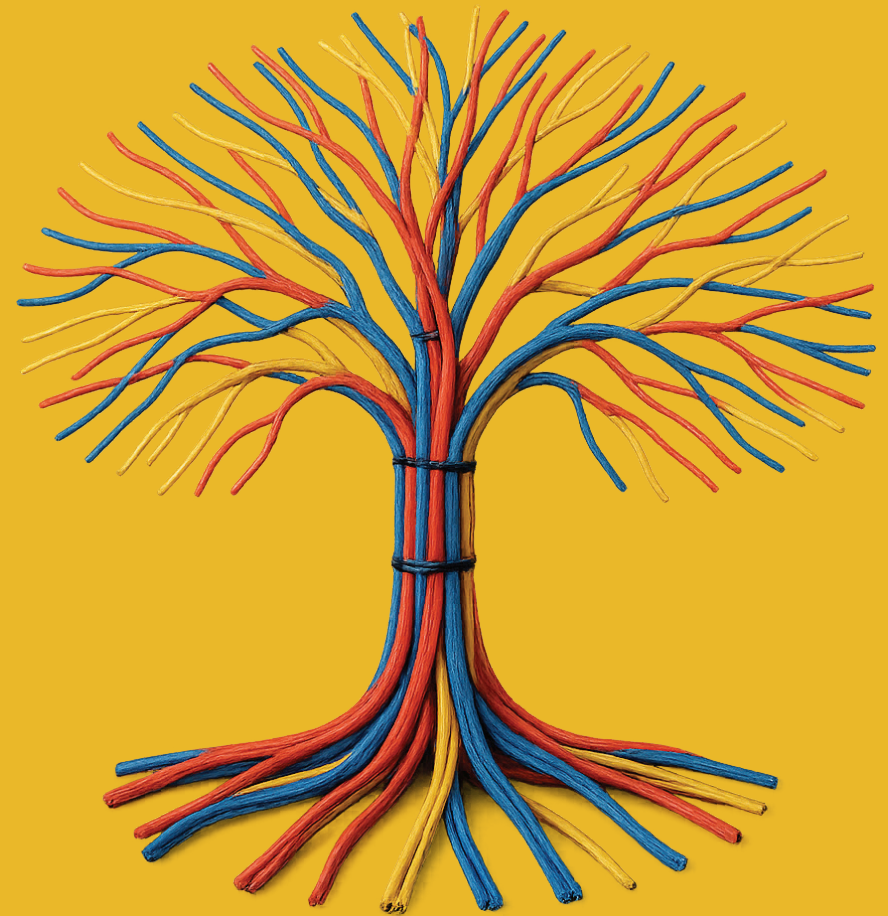

Branch-to-Branch Connectivity (Tower)

We provide reliable, high-speed, and secure connectivity that links your branches, synchronizes operations, and ensures uninterrupted communication with expert support.

Stay connected, no matter the distance.

Reliable, high-speed connectivity solutions to link your branches, sync operations, and keep your business communication seamless.

| Sales & Services

Secure branch connectivity, high-speed internet & networking solutions.

- P2P & beam devices for fast, long-distance links
- Self towers & access points (20–30 km range)
- Unified network & shared internet for all branches
- Centralized DVR, intercom & camera systems
- Local server & VPN for secure communication

| Internet Lease Line Solutions

High-speed, secure connectivity from top providers (10–200 Mbps).

- **Airtel** – Symmetrical internet with SLA
- **Jio** – Fast bandwidth with burst options
- **Tata** – 99.9% uptime, scalable service
- **GTPL** – Broadband & cable in Gujarat
- **Vodafone (Vi)** – Custom leased lines

| Connectivity Solutions

Reliable wireless and tower-based systems for secure, high-speed branch networking.

P2P

Two houses connected point-to-point with antennas

Laser Beam | Power Beam

Two antennas/devices aligned with a beam connection

Self Tower

A tall standalone steel communication support tower

Access Point

Router or base station connecting to an external antenna

Whether connecting homes, offices, or entire networks, our solutions ensure fast, reliable, and seamless wireless communication through P2P links, beam technology, towers, and access points.

Emergency Panic Button

Instant Emergency Alerts

A smart wireless panic button that instantly alerts your contacts and triggers quick action, giving you safety and peace of mind when it matters most.

Instant Alerts, Anytime, Anywhere

A smart wireless panic button that delivers instant notifications during medical, fire, or any emergency, keeping you safe anytime, anywhere.

| Sales

We provide wireless panic button solutions for quick, reliable safety.

- Wireless button for instant alerts
- Works without cables or complex setup
- Online notifications to connected devices
- Compatible with Alexa & Google Home
- Ideal for hospitals, schools, colleges, factories etc.

| Services

Quick, reliable safety with wireless setup and instant alerts.

- Wireless, no wiring needed
- Real-time mobile notifications
- Smart home integration
- Easy installation anywhere

| Key Features

Our panic button ensures instant safety with wireless connectivity, smart integration, and reliable emergency alerts.

Instant Emergency Alerts

One press sends immediate notifications.

Wireless & Hassle-Free

No cabling or complex setup needed.

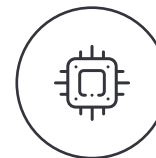

Multi-Device Notifications

Alerts sent to multiple mobiles at once.

Versatile Use Cases

Hospitals, schools, flats, colleges, factories etc.

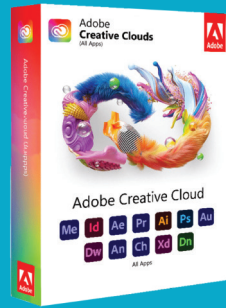

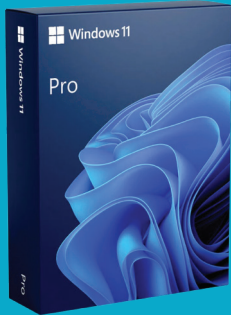

Smart Integration

Alexa & Google Home announcement support.

Licensing Software

Installation & Setup Support

We specialize in delivering authentic, secure, and fully supported licensed software that keeps your business running efficiently and in compliance with global standards.

Trusted software, licensed for your success.

We provide sales, installation, and ongoing support for leading software brands, ensuring smooth performance, compliance, and security for your operations.

| Sales & Service

We offer licensed software tailored to your needs.

- **AutoCAD**
Design & drafting for architects, engineers
- **SolidWorks**
3D CAD for product design & development
- **Microsoft**
Windows, Office & enterprise productivity tools
- **Adobe**
Creative Cloud apps for design & editing
- **Quick Heal**
